To which Division is your Proposal being submitted?

**[NOTE: Graduate students can submit to ANY Division but ONLY graduate students can submit to Division VI. Division VI is not the only division for graduate students. Instead, Division VI is an available option for graduate students whose research will not be completed before the conference, such as dissertation proposals not yet implemented about which students would like some feedback or suggestions before the research is performed! Division VI authorship is limited to graduate students. Faculty authors on Division VI proposals will be removed.]**
